

DIRECTOR'S MESSAGE

Dear Friends,

As the festive season unfolds, we invite you to rediscover the essence of radiant beauty. At Tamira, we believe that the true essence of festive allure lies not merely in external adornments, but in the subtle yet profound glow that reflects from the inside.

In celebration of this joyous season, we are delighted to introduce our exclusive '**Festive Glow Protocol**' – advanced skin boosters and collagen therapies to optimize your skin's health and luminosity. Empower yourself with a radiant complexion that not only enhances your physical appearance but also reflects your inner well-being.

As you prepare to celebrate Dussehra, Diwali, and the festivities that follow, we wish you a season filled with joy and warmth.

– Dr. Jayanthi Ravindran

★ FESTIVE SKIN: WHY ONE TREATMENT IS NOT ENOUGH

Gone are the days of relying on a single treatment to achieve radiant skin. Advances in aesthetic science have shown that combination therapies are the key to truly transformative results. By targeting multiple layers of the skin, these comprehensive approaches not only hydrate and repair but also rejuvenate, revealing a lasting glow.

At Tamira, we've designed a multi-step protocol that goes beyond instant glow and delivers long-lasting radiance. It is designed to deliver sustained radiance, ensuring your skin looks and feels its best throughout the festive season and beyond.

Connect with us

💧 Unlock Radiant Skin with Skin Boosters

Our skin boosters are advanced injectable treatments that deliver deep hydration and regenerative power to the skin. Unlike topical creams or serums, these treatments work at a deeper level to improve skin texture, elasticity, and luminosity.

Our Skin Booster Options:

- Hyaluronic Acid Boosters – Restore hydration and plumpness
- Prohilo: Promote optimal hydration and skin health
- Polynucleotides (PNs): Stimulate repair and regeneration
- PDRN (Polydeoxyribonucleotide): Enhance wound healing and reduces inflammation
- Amino Acid & Vitamin Complexes: Energize skin metabolism

⚡ The Festive Glow Protocol – Step by Step

Our signature festive treatment expertly combines science and artistry to deliver unparalleled results. The sequence includes:

- Numbing Cream for comfort
- Fractional Radiofrequency (RF) to remodel collagen and create micro-channels
- Skin Booster Injections for deep hydration and rejuvenation
- PDRN Mask Therapy to calm, heal, and seal in radiance ✨

This potent combination yields instant glow, smoother skin, and long-lasting radiance.

🌀 Why Choose Tamira?

At Tamira, our expert physicians perform skin boosters and RF treatments with precision and care, ensuring:

- Safety and accuracy
- Personalized treatment plans tailored to your skin type
- Natural, radiant results perfect for the festive season
